## PMX-060 PUGMILL/MIXER

An efficient clay processor for all levels of ceramic production, the PMX-060 combines dry and wet blending, recycling of scraps and greenware, and pugging in a single heavy-duty machine. A powerful 2 HP motor capable of processing 60 – 85 lbs. batch sizes blends dry or wet mixes at 300 lbs./Hr and extrudes clay at 1200 lbs./hr.

A prominent, easily accessible control panel with emergency stop button makes for efficient and safe operation. A large hopper with safety lock system, single stainless steel auger, easy disassembly bolt system for convenient cleaning and 4-inch casters providing portability and easy transport make the PMX-060 the most affordable complete clay processing machine on the market.

### FEATURES & BENEFITS

- + **HEAVY-DUTY ALUMINUM BODY** Extremely durable design for both school and professional applications; die-cast body resists corrosion, preventing clay body contamination
- + **MIXER/PUGGER** Combines dry and wet mixing, reclaim and recycle, pugging, in one high volume machine
- + **POWERFUL 2 HP MOTOR** Blends and mixes at 300 lbs./Hr, and extrudes clay at 1200 lbs./hr in 60-85 lb. batches
- + **SAFETY SYSTEM** Prominent easily accessible control panel with emergency stop button. Large hopper with safety lock system provides for high volume mixing and prevents access to mixing chamber
- + **STAINLESS STEEL AUGER** Non-corrosive surface easily moves clay through barrel
- + **EASY DISASSEMBLY BOLT SYSTEM** Designed for easy removal of barrel top, allowing for thorough cleaning of interior
- + **ONE YEAR WARRANTY** Peace of mind

### SPECIFICATIONS

| MODEL           | PMX-060   |
|-----------------|---|
| MOTOR           | 2 HP, 250 W, 115 VAC, 60 Hz, 230 v, Single Phase                          |
| CAPACITY        | 800 lbs. Mix: 300 lbs./Hr Extrude: 1200 lbs./hr. Batch sizes 60 – 85 lbs. |
| NOZZLE OPENING: | 3" diameter   |
| HOPPER SIZE     | 8" x 8"   |
