Our mid-term growth initiative “Vision 2020,” which seeks to attain net sales of two trillion yen and consolidated operating profit ratio of 15% in the fiscal year 2020, will serve as a solid stepping-stone toward achieving this end.

Your continuous support will truly be appreciated.

Current circumstances of the Nidec Group

1. Current circumstances and results of business operations

(1) Overview of business environment in the fiscal year 2016 ended March 31, 2017

Adoption of IFRS

The Group has adopted International Financial Reporting Standards (“IFRS”) for its consolidated financial statements instead of U.S. GAAP from the fiscal year ended March 31, 2017. Accordingly, the consolidated financial statements for the fiscal year ended March 31, 2016, which were published on a U.S. GAAP basis, are presented in accordance with IFRS for comparative analysis.

Regarding the global economy during the fiscal year 2016, the U.S. economy continued to expand moderately, while a concurrent global stock market rally known as the “Trump rally,” which continued since Donald Trump was elected President of the United States, has now been settled. While Europe and Japan continue to enjoy a moderate recovery, China, supported by its domestic demand expansion based on public works projects, is making steady economic growth, with resource-rich countries like Brazil and Russia on their way to exit the current economic struggle as their commodity markets recover.

Under such a business environment, we continued to pursue our sales and profit growth strategies with a view to achieve our target for the fiscal year 2020 ending March 31, 2021 of consolidated net sales of two trillion yen and operating profit ratio of 15% based on our mid-term strategic goal “Vision 2020.” Compared to the previous fiscal year, consolidated net sales increased 1.8% to ¥1,199,311 million, operating profit increased 19.3% to ¥140,331 million, profit before income taxes increased 21.4% to ¥142,278 million, and profit attributable to owners of the parent increased 24.2% to ¥111,721 million, in the fiscal year 2016. This translates into the highest sales and profits for the period in the Company’s history.

With regard to our subsidiaries, we in principle did not procure funds from financial institutions, but used the cash management systems of management companies and other business entities within our group to promote the consolidation of fund procurement sources and efficient use of funds.

4. Issues

(1) Continue to enhance the corporate governance system

We plan to have a total of three outside members of the Audit & Supervisory Board and two outside members of the Board of Directors for the fiscal year 2016, so as to enable more vigorous discussions in the meetings of the Board of Directors. We are focusing on further strengthening our corporate governance including an improvement in the structure of the Board of Directors.

(2) Enhance and strengthen our global management infrastructure

As a global company, we continue to enhance our group-wide management system that meets global standards, including financial reporting and disclosure systems.

In order to strengthen the foundation for our growth strategy, we are currently building our “Five-Pronged Global Business Management System” to accelerate both organic global growth and post-merger integration following acquisitions. Specifically, we are establishing regional headquarters that are responsible for improving management quality (governance, compliance and internal controls), improving management efficiency (high quality, low-cost regional shared services), and actively supporting post-merger integration, while expanding their functionalities.

We previously maintained a “federate-style” management system, under which each group company we acquired maintained a high degree of independence and autonomy in managing its business operations. However, in response to globalization, we are now quickly moving towards unified group management.

Our Corporate Administration & Internal Audit Department, the department responsible for group-wide internal controls, seeks to establish a global audit system in an effort to strengthen the supervision in the area of prevention of improper conduct as the global management system is further enhanced, and further enhance our internal control system based on the experience and know-how gained through the past audits of our financial statements and the implementation of measures to comply with the U.S. Sarbanes-Oxley Act of 2002. We also seek to improve our disclosure system and policy through enhanced cooperation between a committee responsible for information disclosure and other relevant specialized departments.

Such specialized departments and offices, including the Compliance Office, the Risk Management Office, and the CSR (corporate social responsibility) Promotion Office, also collaborate with one another and other departments as appropriate. We seek to find ways to create jobs and otherwise contribute to society based on our basic management policy as a good corporate citizen.
