Nidec Drive Technology to Exhibit Products at PACK EXPO Las Vegas 2025 (an International Packaging & Processing Industry Exhibition) to Demonstrate Its Diverse Gear Technologies and Drive & Gear Solutions

Nidec Drive Technology Corporation ("Nidec Drive Technology" or the "Company") announced today that it will exhibit products at PACK EXPO 2025, an international packaging and processing industry exhibition to be held in Las Vegas, the United States, from Monday, September 29 – Wednesday, October 01, 2025.

At this upcoming trade show, Nidec Drive Technology will showcase its hard-worked, diverse gearbox technologies and other solutions to address the packaging and processing industry's on-site issues such as space and efficiency improvement, noise reduction, and securing high reliability. At its booth, the Company will display a group of its products that support OEM and other machinery manufacturers in packaging, printing, robot, transfer, medical equipment, aerospace, semiconductor manufacturing, and many other industrial fields.

Nidec Drive Technology will stay committed to offering optimum solutions that meet its customers' diverse needs.

Nidec Drive Technology's main exhibits will include:

- [ABLE Series \(planetary gear reducers\)](#)
- [FLEXWAVE \(high-precision reducers for precise control\)](#)
- [Hypoid/spiral/bevel reducers](#)
- [AGV drive systems](#)
- Racks and pinions
- [KINEX Series \(large high-precision reducers\)](#)
- [High-precision orthogonal worm reducers](#)
- [Traction drives](#)
- Rotary index tables

About PACK EXPO Las Vegas 2025:

Period: 09:00 – 17:00 on Monday, September 29 – Tuesday, September 30, 2025 (local time)

09:00 – 15:00 on Wednesday, October 01, 2025 (local time)

Venue: Las Vegas Convention Center (<https://www.packexpolasvegas.com/>)

Booth: SL-14093
