Nidec Launches Dedicated Webpage for Humanoid Solutions

Nidec Corporation (“Nidec,” the “Company,” or “we”) announced today the upcoming launch of its dedicated “Nidec Humanoid Solutions” webpage scheduled for September 9, 2026. The new website will consolidate the Nidec Group’s related products aimed at realizing humanoid robots—our new partners in shaping the society of the future.

The development of humanoid robots capable of human-like movements is accelerating globally. This trend is driven by the demand for advanced automation in manufacturing, the need to replace human labor in hazardous environments such as disaster zones and high-altitude locations, and the growing integration of service robots into daily life. Leveraging its world-class technological capabilities and global supply chain—cultivated across diverse fields such as home appliances, automotive, and industrial equipment—Nidec is developing and providing a wide range of products applicable to humanoid robots.

The new webpage is designed to provide a comprehensive overview of our diverse product lineup, along with the Nidec Group’s core strengths and technologies. Visitors can also download a comprehensive catalog containing detailed product specifications.

Key Content and Features

- Product Lineup by Application: A clear, easy-to-understand overview of our current products, strengths, and technologies, categorized by humanoid body parts.
- Catalogue Downloads: Access to comprehensive catalogs featuring product overviews and detailed specification tables.
- Latest Updates: Ongoing updates with the latest news and new product information.
- Global Inquiry Desk: A dedicated contact form for humanoid-related products, ready to support inquiries from customers worldwide.

As the field of robotics continues to advance, the Nidec Group will utilize its comprehensive capabilities to drive agile product development that meets the diverse and evolving needs of our customers.
