Nidec Corporation

Released on November 10, 2026, in Kyoto, Japan

Exhibition at the COP31 Virtual Japan Pavilion

"Introduction of Nidec's products and solutions that contribute to decarbonization"

Nidec Corporation (hereinafter referred to as "Nidec") is participating in the virtual exhibition of the Japan Pavilion at the 31st Conference of the Parties to the United Nations Framework Convention on Climate Change (COP31), which is currently being held in Antalya, Türkiye, from November 9 to November 19, 2026.

COP31 is a United Nations conference to discuss climate change issues around the world. The venue will have pavilions from countries and organizations, each presenting their sustainability initiatives. Nidec will showcase our initiatives towards achieving net zero CO2 emissions, and our products and technologies that contribute to decarbonization.

Exhibition Overview

Introduction of Nidec's products and solutions that contribute to decarbonization

1) Digital Society Solutions: Water Cooling for AI Data Centers (High-Efficiency Thermal Management)
2) Sustainable Infrastructure and Energy: Battery Energy Storage Systems (BESS)
3) Enhancing Industrial Production Efficiency: Machine Tools & Press Machines (Double-Column Machining Centers)
4) Better Life: Home Appliances, Commercial Equipment (Variable-Speed Compressors)
5) Mobility Innovation: Automotive Components and Electric Motorcycles (Magnet-Free Motors)
