UNAUDITED FINANCIAL STATEMENTS (U.S. GAAP)

RESULTS FOR THE YEAR ENDED MARCH 31, 2011 FROM APRIL 1, 2010 TO MARCH 31, 2011 CONSOLIDATED

Released on April 25, 2011

NIDEC CORPORATION

Date of Board of Directors' Meeting for Approving Financial Statements: April 25, 2011

Stock Listings: Tokyo Stock Exchange, Osaka Securities Exchange, New York Stock Exchange

Head Office: Kyoto, Japan

Date of Annual General Shareholders' Meeting (Plan): June 21, 2011
Date of Commencement of Dividend Payment (Plan): June 1, 2011
Date of Filing of Japanese Annual Securities Report (Plan): June 22, 2011

1. Selected Consolidated Financial Performance (U.S. GAAP) (Unaudited)

(1) Consolidated Results of Operations

Yen in millions (except for per share amounts)

	Year ended M	Tarch 31
	2011	2010
Net sales	¥688,530	¥586,029
Ratio of change from the same period of previous fiscal year	17.5%	(4.1)%
Operating income	90,527	78,513
Ratio of change from the same period of previous fiscal year	15.3%	50.9%
Income from continuing operations before income taxes	79,525	75,183
Ratio of change from the same period of previous fiscal year	5.8%	59.1%
Net income attributable to Nidec Corporation	52,333	51,961
Ratio of change from the same period of previous fiscal year	0.7%	83.3%
Net income attributable to Nidec Corporation per share -basic	¥375.91	¥373.04
Net income attributable to Nidec Corporation per share -diluted	¥362.80	¥373.04
Ratio of net income attributable to Nidec Corporation to average of Nidec Corporation shareholders' equity *3	15.0%	16.3%
Ratio of income from continuing operations before income taxes to total assets	11.0%	10.8%
Ratio of operating income to net sales	13.1%	13.4%

Notes:

1. Comprehensive income:

¥36,432 million for the year ended March 31, 2011 (28.4% decrease compared to the fiscal year ended March,

¥50,905 million for the year ended March 31, 2010 (433.4% increase compared to the fiscal year ended March

2. Equity in net income (loss) of affiliated companies:

¥6 million for the year ended March 31, 2011

¥(45) million for the year ended March 31, 2010

3. Average of Nidec Corporation shareholders' equity at the beginning and the end of each fiscal year

(2) Consolidated Financial Position

1. Operating and Financial Review and Prospects

(1) Analysis of Operating Results

1. Overview of Business Environment in Fiscal Year ended March 31, 2011 ("this fiscal year")

In the fiscal year ended March 31, 2011, economic expansions in newly emerging nations continued to drive global economic growth, while the diminishing effects of economic stimulus measures and the adverse impact of the financial crisis in the European Union impeded economic growth in developed nations, slowing the overall global economic recovery.

With the launch of its new business strategy, "Vision 2015," in the fiscal year ended March 31, 2011, the Nidec Group began making a significant transition to a growth-oriented strategy. The new business strategy is an integrative global growth strategy designed to realize our vision, and consists of a global organic growth strategy and an M&A growth strategy. Aiming to achieve its target sales level of ¥1 trillion in the fiscal year ending March 31, 2013 and ¥2 trillion in the fiscal year ending March 31, 2016, the Nidec Group started to take concrete actions designed to attain growth and enhance profitability, including through improving and expanding its business portfolio. In light of, and in part as a result of, the foregoing,

- Net sales and operating income increased 17.5% and 15.3%, respectively, for the fiscal year ended March 31, 2011 compared to the previous fiscal year, and operating income, income from continuing operations before income taxes and net income attributable to Nidec Corporation for the fiscal year ended March 31, 2011 reached new record-high levels;
- 2) Net sales of the "general motors" product category, which consists of motors for home appliances and industrial use and motors for automobiles, accounted for 26.6% of total net sales for the fiscal year ended March 31, 2011, compared to 12.4% for the previous fiscal year, achieving improvement and expansion of the Nidec Group's business portfolio in line with "Vision 2015," where the general motors product category is expected to drive the Nidec Group's growth; and
- 3) Among our five listed subsidiaries, Nidec Sankyo, Nidec Copal Electronics and Nidec-Read each exceeded their previously announced operating income targets, and Nidec Copal, Nidec Tosok, Nidec Copal Electronics and Nidec-Read each recorded record-high operating income.

For discussions of the impact of the recent earthquake and subsequent events in Japan on our operating results and forecasts, see "Consolidated Operating Results for the Three Months ended March 31, 2011 ("this 4Q") Compared to the Three Months ended December 31, 2010 ("this 3Q")," "(3) Business Forecasts for the Fiscal Year ending March 31, 2012" and "(5) Risk Factors."

2. Consolidated Operating Results

Consolidated Operating Results for the Fiscal Year ended March 31, 2011 ("this fiscal year"), Compared to the Fiscal Year ended March 31, 2010 ("the previous fiscal year")

Consolidated net sales increased ¥102,501 million, or 17.5%, to ¥688,530 million for this fiscal year. Operating income increased ¥12,014 million, or 15.3%, to ¥90,527 million for this fiscal year, which is our record-high operating income for any fiscal year. In each of the "machinery," "general motors," "electronic and optical components" and "other products" product categories, both net income and operating income increased compared to the previous fiscal year. Operating income of general motors was ¥3,426 million for this fiscal year,

compared to an operating loss of ¥430 million for the previous fiscal year, with the contribution from Nidec Motor Corporation, the former motors and controls business of Emerson Electric Co., which we acquired on September 30, 2010 and subsequently made a consolidated subsidiary. We recorded an operating income ratio of 13.1% for this fiscal year, achieving an operating income ratio over 13% for two consecutive fiscal years. The average exchange rate between the U.S. dollar and the Japanese yen for this fiscal year was ¥85.72 to the dollar, an appreciation of the Japanese yen against the U.S. dollar of approximately ¥7.1, or 8%, compared to the previous fiscal year. The appreciation of the Japanese yen and other Asian currencies against the U.S. dollar had a negative effect on our net sales and operating income for this fiscal year of approximately ¥36,100 million and ¥10,600 million, respectively, compared to the previous fiscal year.

Income from continuing operations before income taxes increased ¥4,342 million, or 5.8%, to ¥79,525 million for this fiscal year compared to the previous fiscal year, which is our record-high income for any fiscal year. Mainly due to an approximately ¥6,200 million increase in foreign exchange loss for this fiscal year compared to the previous fiscal year, the increase in income from continuing operations before income taxes fell short of the increase in operating income by approximately ¥7,700 million.

Net income attributable to Nidec Corporation increased ¥372 million, or 0.7%, to ¥52,333 million for this fiscal year compared to the previous fiscal year. Net income attributable to Nidec Corporation for this fiscal year reflected an approximately ¥3,500 million loss from discontinued operation of the "specialty lens unit" of Nidec Copal Corporation.

Operating Results by Product Category for This Fiscal Year Compared to the Previous Fiscal Year

Small precision motors-

Net sales of small precision motors decreased approximately \$8,700 million, or 3%, to \$321,490 million for this fiscal year compared to the previous fiscal year.

Although unit shipment of small precision motors for hard disc drives ("HDDs") for this fiscal year increased approximately 5%, sales of the small precision motors for HDDs decreased approximately 4%, compared to the previous fiscal year. The primarily reason for the 4% decrease in sales was mainly due to the 8% appreciation of Japanese yen against U.S. dollar. Although unit shipments of spindle motors for 2.5-inch increased approximately 14%, unit shipments of spindle motors for 3.5-inch decreased approximately 2%, compared to the previous fiscal year. Although sales of spindle motors for 2.5-inch increased approximately 1%, sales of spindle motors for 3.5-inch decreased approximately 7%, compared to the previous fiscal year.

Net sales of other small precision brushless DC motors for this fiscal year decreased approximately 4% compare to the previous fiscal year. With respect to Nidec Corporation and its direct-line subsidiaries, sales of other small precision brushless DC motors for this fiscal year decreased approximately 11%, although unit shipment of other small precision brushless DC motors for this fiscal year increased approximately 4%, compared to the previous fiscal year. The main reasons for the 11% decrease in the sales of other small precision brushless DC motors for this fiscal year were the appreciation of the Japanese yen against the U.S. dollars and a decrease in the average unit price on a U.S. dollar basis.

Net sales of brushless DC fans increased approximately 4% for this fiscal year compared to the previous fiscal year. With respect to Nidec Corporation and its direct-line subsidiaries, sales of brushless DC fans increased approximately 2% for this fiscal year compared to the previous fiscal year. The main reason for the 2% increase in sales of brushless DC fans was an increase of approximately 11% in unit shipments of brushless DC fans, which was partially offset by the negative effect of the yen appreciation for this fiscal year compared to the previous fiscal year.

Operating income of small precision motors decreased approximately ¥3,800 million, or 6%, to ¥58,704 million for this fiscal year compared to the previous fiscal year. The operating income ratio of small precision motors was 18.3% for this fiscal year, which remained at a level similar to the previous fiscal year. The yen appreciation had a negative impact on the operating income of small precision motors of approximately ¥7,800 million.

General motors-

From the second quarter of this fiscal year, this product category has been renamed from "mid-size motors" to "general motors," due to the addition of "large-size motors for industrial use" to this category resulting from our acquisition of Emerson Electric Co.'s motors and controls business on September 30, 2010.

Net sales of general motors increased approximately ¥63,900 million, or 87%, to ¥137,251 million for this fiscal year compared to the previous fiscal year. This increase was mainly due to the contributions of the recently consolidated subsidiaries, including Nidec Motor Corporation, the former motors and controls business of Emerson Electric Co., whose sales were approximately ¥35,500 million for the six months ended March 31, 2011 since it became a consolidated subsidiary of Nidec on September 30, 2010, and Nidec Sole Motor Corporation S.R.L., which we acquired in January 2010 and whose sales were approximately ¥12,400 million for this fiscal year. Excluding the impact of the recently consolidated subsidiaries, sales of general motors for home appliances and industrial use and sales of general motors for automobiles increased approximately ¥8,000 million and ¥8,000 million, or 23% and 23%, respectively, for this fiscal year compared to the previous fiscal year. Within the "general motors for automobiles" product category, sales of general motors for electric power steering and sales at Nidec Motors & Actuators respectively increased for this fiscal year compared to the previous fiscal year.

Operating income of general motors was ¥3,426 million for this fiscal year, compared to an operating loss of approximately ¥400 million for the previous fiscal year, an improvement of approximately ¥3,900 million. This improvement was mainly due to the increase in sales of general motors for home appliances and industrial use and the contribution to operating income by the newly consolidated subsidiaries, Nidec Motor Corporation and Nidec Sole Motor Corporation S.R.L., which more than offset the negative effect of rapidly increasing R&D investment costs relating to the "general motors for automobiles" product category, which is expected to increase in importance for our growth strategy in the coming years. We have completed an evaluation of the fair value of the assets acquired and the liabilities assumed in connection with the acquisition of Nidec Motor Corporation, and recorded approximately ¥2,000 million of amortization loss relating to the assets and liabilities in this fiscal year.

Machinery-

Net sales of machinery increased approximately ¥29,400 million, or 61%, to ¥77,329 million for this fiscal year compared to the previous fiscal year, primarily due to increasing demand in China. Sales of machinery at all of our subsidiary groups that manufacture and sell products in this business category increased for this fiscal year compared to the previous fiscal year. The increase in net sales of machinery was mainly due to an increase in sales of LCD panel handling robots and card readers at Nidec Sankyo of approximately ¥11,700 million, or 54%, compared to the previous fiscal year. The increase in net sales of machinery was also due in part to an increase in sales of electronic circuit testing systems at Nidec-Read of approximately ¥5,800 million, or 83%, mainly reflecting increasing demand for digital equipment, such as smartphones, an increase in sales of machinery at Nidec-Shimpo of approximately ¥4,500 million, or 51%, mainly reflecting increasing demand in developing countries, and an increase in sales of press machines for electronic components at Nidec-Kyori of approximately ¥4,100 million, or 96%, for this fiscal year compared to the previous fiscal year. Sales of peripheral equipment for chip mounters at Nidec Copal and sales of measuring and inspection machines for air conditioning compressors at Nidec Tosok increased approximately ¥1,700 million and ¥1,100 million, or 51% and 46%, respectively, for this fiscal year compared to the previous fiscal year.

Operating income of machinery increased approximately ¥6,800 million to ¥12,605 million for this fiscal year, which was approximately twice as much as our operating income of machinery for the previous fiscal year.

Electronic and optical components-

Net sales of electronic and optical components increased approximately \(\frac{\pmathbf{4}}{12}\),100 million, or 11%, to \(\frac{\pmathbf{4}}{117}\),843 million for this fiscal year compared to the previous fiscal year. This was mainly due to an increase in sales of electronic components, including circuit components and sensors, at Nidec Copal Electronics of approximately

¥5,500 million, or 23%, and an increase in sales of such products as shutters and lens units for digital cameras and mobile phones at Nidec Copal of approximately ¥4,100 million, or 8%, for this fiscal year compared to the previous fiscal year. Sales of control device units at Nidec Sankyo and sales of plastic-mold products at Nidec Nissin also increased for this fiscal year compared to the previous fiscal year. As of March 31, 2011, we discontinued our specialty lens unit business, which we had conducted through Nidec Copal. All prior period specialty lens unit amounts in this report have been reclassified to discontinued operations. Net sales of the discontinued operations for this fiscal year and the previous fiscal year were ¥5,120 million and ¥1,430 million, respectively.

Operating income of electronic and optical components increased approximately \(\xxi\$5,400 million, or 49%, to \(\xxi\$16,457 million for this fiscal year, compared to the previous fiscal year.

Other products-

Net sales of other products increased approximately ¥5,800 million, or 20%, to ¥34,617 million for this fiscal year compared to the previous fiscal year. This was primarily due to an increase in sales of automotive parts at Nidec Tosok of approximately ¥5,200 million, or 25%, for this fiscal year compared to the previous fiscal year. Sales from the logistics and services related businesses by Nidec Logistics and Nidec Total Service also increased for this fiscal year compared to the previous fiscal year. Sales of pivot assemblies for HDDs, however, decreased approximately ¥1,000 million, or 38%, for this fiscal year compared to the previous fiscal year.

Operating income of other products increased approximately ¥1,100 million, or 33%, to ¥4,464 million for this fiscal year compared to the previous fiscal year.

Consolidated Operating Results for the Three Months ended March 31, 2011 ("this 4Q") Compared to the Three Months ended December 31, 2010 ("this 3Q")

Consolidated net sales decreased ¥5,103 million, or 2.9%, to ¥173,556 million for this 4Q compared to this 3Q. Operating income decreased ¥4,770 million, or 22.0%, to ¥16,961 million for this 4Q compared to this 3Q. Our operating income for this 4Q reflected expenses of ¥3,600 million mainly relating to reorganization of group companies, amortization of intangible assets in connection with the acquisition of Nidec Motor Corporation, and losses caused by the recent earthquake and subsequent events in Northeastern Japan. The average exchange rate between the U.S. dollar and the Japanese yen for this 4Q was ¥82.32 to the dollar, an appreciation of the Japanese yen against the U.S. dollar of approximately ¥0.3 compared to this 3Q. The appreciation of the Japanese yen against the U.S. dollar had a negative impact on our net sales and operating income of approximately ¥800 million and ¥100 million, respectively, for this 4Q compared to this 3Q.

Income from continuing operations before income taxes decreased \$1,506 million, or 7.6%, to \$18,205 million for this 4Q compared to this 3Q. We recorded a foreign exchange gain of approximately \$2,300 million for this 4Q, compared to a foreign exchange loss of approximately \$1,800 million for this 3Q. Net income attributable to Nidec Corporation decreased \$1,599 million, or 11.9%, to \$11,860 million for this 4Q compared to this 3Q, reflecting approximately \$2,900 million of loss from discontinued operations relating to Nidec Copal's specialty lens unit business for this 4Q.

Operating Results by Product Category for this 4Q compared to this 3Q

Small precision motors-

Net sales of small precision motors decreased approximately \$6,600 million, or 8%, to \$71,877 million for this 4Q compared to this 3Q.

Unit shipments of spindle motors for hard disc drives ("HDDs") decreased approximately 10%, and sales of spindle motors for HDDs decreased approximately 12%, for this 4Q compared to this 3Q. Unit shipments of spindle

motors for 2.5-inch and 3.5-inch HDDs decreased approximately 11% and 9%, respectively, for this 4Q compared to this 3Q, mainly due to a sudden decrease in demand for HDDs.

Net sales of other small precision brushless DC motors decreased approximately 1% for this 4Q compared to this 3Q. With regard to Nidec Corporation and its direct-line subsidiaries, sales of other small precision brushless DC motors for this 4Q remained at a level similar to this 3Q mainly due to an approximately 4% decrease in the average unit price of small precision brushless DC motors on a U.S. dollar basis, despite an approximately 4% increase in unit shipments of small precision brushless DC motors, for this 4Q compared to this 3Q.

Net sales of brushless DC fans decreased approximately 11% for this 4Q compared to this 3Q. With regard to Nidec Corporation and its direct-line subsidiaries, sales of brushless DC fans decreased approximately 8% mainly due to an approximately 10% decrease in unit shipments of brushless DC fans, despite an approximately 3% increase in the average unit price of brushless DC motors on a U.S. dollar basis, for this 4Q compared to this 3Q.

Operating income of small precision motors decreased approximately ¥3,200 million, or 24%, to ¥10,233 million for this 4Q compared to this 3Q, reflecting expenses relating to reorganization of group companies of approximately ¥1,100 million.

General motors-

Since the second quarter of this fiscal year, this product category has been renamed from "mid-size motors" to "general motors," due to the addition of "large-size motors for industrial use" to this category resulting from our acquisition of Emerson Electric Co.'s motors and controls business on September 30, 2010.

Net sales of general motors increased approximately ¥3,000 million, or 7%, to ¥46,083 million for this 4Q compared to this 3Q. This was mainly due to an increase in sales of general motors for home appliances and industrial use and an increase in sales of general motors for automobiles of approximately ¥1,000 million and ¥1,600 million, or 9% and 15%, respectively, for this 4Q compared to this 3Q. Within the "general motors for automobiles" product category, unit shipments and sales of general motors for electric power steering by Nidec Corporation and its direct-line subsidiaries increased approximately 9% and 21%, respectively, for this 4Q compared to this 3Q.

Operating income of general motors increased approximately ¥500 million, or 54%, to ¥1,514 million for this 4Q compared to this 3Q. Operating income of general motors for home appliances and industrial use including operating income of Nidec Motor, increased and, with regard to Nidec Corporation and its direct-line subsidiaries, operating income of general motors for automobiles increased, for this 4Q compared to this 3Q, more than offseting the negative effect of rapidly increasing R&D investment costs relating to the "general motors for automobiles" product category.

Machinery-

Net sales of machinery decreased approximately ¥700 million, or 4%, to ¥19,283 million for this 4Q compared to this 3Q. This decrease was mainly due to a decrease in sales of LCD panel handling robots at Nidec Sankyo of approximately ¥500 million, or 6%, a decrease in sales at Nidec Tosok of approximately ¥200 million, or 25%, and a decrease in sales at Nidec-Read of approximately ¥200 million, or 7%, for this 4Q compared to this 3Q. Sales of machinery at Nidec-Shimpo increased approximately ¥200 million, or 6%, for this 4Q compared to this 3Q, due to increasing demand in developing countries.

Operating income of machinery decreased approximately ¥200 million, or 7%, to ¥3,049 million for this 4Q compared to this 3Q, primarily due to the decrease in sales.

Electronic and optical components-

Net sales of electronic and optical components decreased approximately ¥300 million, or 1%, to ¥27,745 million for this 4Q compared to this 3Q. This decrease was mainly due to a decrease in sales of such products as control device units at Nidec Sankyo of approximately ¥500 million, or 6%, and a decrease in sales of electronic components, including circuit components and sensors, at Nidec Copal Electronics of approximately ¥100 million, or

2%, for this 4Q compared to this 3Q. Sales of shutters and lens units for digital cameras and mobile phones at Nidec Copal increased approximately ¥300 million, or 2%, for this 4Q compared to this 3Q.

Operating income of electronic and optical components decreased approximately \(\xxi\)1,200 million, or 31%, to \(\xxi\)2,767 million for this 4Q compared to this 3Q, reflecting losses of approximately \(\xxi\)500 million at Nidec Copal and approximately \(\xxi\)300 million at Nidec Copal Electronics caused by the recent earthquake and subsequent events in Northeastern Japan.

Other products-

Net sales of other products decreased approximately ¥500 million, or 6%, to ¥8,568 million for this 4Q compared to this 3Q. This decrease was mainly due to a decrease in sales of pivot assemblies for HDDs of approximately ¥600 million for this 4Q compared to this 3Q, although sales of services related businesses at Nidec Total Service increased approximately ¥300 million, or 21%, for this 4Q compared to this 3Q.

Operating income of other products decreased approximately ¥600 million, or 50%, to ¥623 million for this 4Q compared to this 3Q, mainly due to a decrease in the profitability of the pivot assemblies for HDDs business.

Debt to equity ratio ("D/E ratio") (times) *4	0.44	0.35	0.09
Net D/E ratio (times) *5	0.17	(0.01)	0.18
Nidec Corporation shareholders' equity to total assets (%)	47.5	49.1	(1.6)

Notes:

- *1: The sum of "short-term borrowings," "current portion of long-term debt" and "long-term debt" in our consolidated balance sheet, including zero-coupon bonds.
- *2: "Interest-bearing debt" less "cash and cash equivalents"
- *3: "Interest-bearing debt" divided by "total assets"
- *4: "Interest-bearing debt" divided by "Nidec Corporation shareholders' equity"
- *5: "Net interest-bearing debt" divided by "Nidec Corporation shareholders' equity"

Total assets increased approximately ¥55,400 million to ¥748,205 million as of March 31, 2011 compared to March 31, 2010. This increase was primarily due to an increase of approximately ¥33,100 million in tangible assets, ¥20,900 million in inventories and ¥9,900 million in goodwill, which were offset in part by a decrease of approximately ¥29,000 million in cash and cash equivalents. Our assets as of March 31, 2011 included the acquired assets of Emerson Electric Co.'s motors and controls business, which primarily consisted of approximately ¥12,800 million in accounts receivable, ¥19,400 million in tangible assets, ¥12,800 million in intangible assets, and ¥8,500 million in inventories. We also recorded approximately ¥11,400 million in goodwill relating to the acquisition of Emerson Electric Co.'s motors and controls business as of March 31, 2011.

With respect to liabilities, long-term debt increased approximately \$100,000 million compared to March 31, 2010 to \$101,819 million, primarily due to the issuance of convertible bonds in September 2010, which was offset in part by an approximately \$63,400 million reduction in short-term borrowings. The debt ratio increased to 20.7% as of March 31, 2011 from 17.1% as of March 31, 2010. Our liabilities as of March 31, 2011 included the acquired liabilities of Emerson Electric Co.'s motors and controls business, which primarily consisted of approximately

¥10,200 million in accounts payable. Our debt to equity ratio as of March 31, 2011 was 0.44, compared to 0.35 as of March 31, 2010. Our net debt to equity ratio as of March 31, 2011 was 0.17, compared to negative 0.01 as of March 31, 2010.

Nidec Corporation shareholders' equity increased approximately \(\frac{\pmathbf{414,900}}{\pmathbf{million}}\) to \(\frac{\pmathbf{4355,250}}{\pmathbf{million}}\) million as of March 31, 2011 compared to March 31, 2010, primarily due to an increase of approximately \(\frac{\pmathbf{41,200}}{\pmathbf{million}}\) million in retained earnings, which was offset in part by an increase of approximately \(\frac{\pmathbf{415,900}}{\pmathbf{million}}\) million in negative foreign currency translation adjustments resulting from the appreciation of the Japanese yen against the U.S. dollar.

Nidec Corporation shareholders' equity as of March 31, 2011 increased compared to March 31, 2010, although Nidec Corporation shareholders' equity to total assets decreased to 47.5% as of March 31, 2011 from 49.1% as of March 31, 2010, primarily due to the 3.6 percentage point increase in our debt ratio resulting from the issuance of the convertible bonds described above.

Overview of Cash Flow-

(in millions)	For the year	For the year	
	ended March	ended March	
	31, 2011	31, 2010	Inc/dec
Net cash provided by operating activities	¥83,084	¥90,080	¥(6,996)
Net cash used in investing activities	(106,942)	(40,514)	(66,428)
Free cash flow *1	(23,858)	49,566	(73,424)
Net cash provided by (used in) financing activities	¥3,764	¥(122,779)	¥126,543

Note: *1: To supplement our statements of cash flows presented on a GAAP basis, we use non-GAAP measures of cash flows to analyze cash flows generated from our operations. The presentation of non-GAAP free cash flow is not meant to be considered in isolation or as an alternative to net income as an indicator of our performance, or as an alternative to cash flows from operating activities as a measure of liquidity. Our free cash flow is the sum of "net cash flow from operating activities" and "net cash flow from investing activities."

Cash flow from operating activities for the fiscal year ended March 31, 2011 ("this fiscal year") was a net inflow of \(\frac{\pmax}{\pmax}\),084 million. Compared to the fiscal year ended March 31, 2010 ("the previous fiscal year"), the cash inflow from operating activities for this fiscal year decreased approximately \(\frac{\pmax}{\pmax}\),000 million. This decrease was mainly due to the negative effects of a decrease in trade notes and accounts payable of approximately \(\frac{\pmax}{\pmax}\),900 million and an increase in inventories of approximately \(\frac{\pmax}{\pmax}\),400 million, which were offset in part by an increase in consolidated net income of approximately \(\frac{\pmax}{\pmax}\),300 million compared to the previous fiscal year.

Cash flow from investing activities for this fiscal year was a net cash outflow of \(\frac{\pmathbf{\text{\text{47}}}}{106,942}\) million. Compared to the previous fiscal year, the net cash outflow increased approximately \(\frac{\pmathbf{\text{\text{46}}}}{400}\) million mainly due to acquisitions of business, net of cash acquired of approximately \(\frac{\pmathbf{\text{\text{47}}}}{47,200}\) million and additional purchases of property, plant and equipment of approximately \(\frac{\pmathbf{\text{\text{\text{90}}}}{400}\) million.

As a result, we had a negative free cash flow of ¥23,858 million for this fiscal year, compared to a positive free cash flow of ¥49,566 million for the previous fiscal year.

Cash flow from financing activities for this fiscal year was a net cash inflow of \(\frac{\pmathbf{\frac{4}}}{3.764}\) million, compared to a net cash outflow of \(\frac{\pmathbf{\frac{1}}}{122,779}\) million for the previous fiscal year. The difference of approximately \(\frac{\pmathbf{\frac{4}}}{126,500}\) million between the cash inflow for this fiscal year and the cash outflow for the previous fiscal year primarily reflected an inflow of approximately \(\frac{\pmathbf{\frac{4}}}{100,500}\) million in proceeds from the issuance of the convertible bonds described above and an approximately \(\frac{\pmathbf{\frac{4}}}{45,900}\) million reduction in short-term borrowings in this fiscal year.

As a result of the foregoing and the impact of foreign exchange fluctuations, the balance of cash and cash equivalents as of March 31, 2011 was ¥94,321 million, a decrease of ¥28,988 million from March 31, 2010.

Reference:

	As of March 31, 2011	As of March 31, 2010	As of March 31, 2009	As of March 31, 2008
Shareholders' equity to total assets	47.5%	49.1%	42.3%	47.6%
Total market value of Nidec's shares (*1 *4) to total				
assets	133.3%	201.5%	87.2%	132.3%
Interest-bearing liabilities (*2) to net cash provided				
by operating activities	1.9	1.3	3.4	1.1
Interest coverage ratio (*3)	223.3	127.6	46.0	37.9

Notes:

- *1. Total market value of Nidec's shares to total assets is a Non-GAAP measure. Total market value is calculated as closing stock price at fiscal year end multiplied by a number of shares issued and outstanding at fiscal year end (excluding treasury stock).
- *2. Interest-bearing liabilities: total amount of "short-term borrowings", "current portion of long-term debt" and "long-term debt" in the consolidated balance sheet.
- *3. Interest coverage ratio: net cash provided by operating activities divided by "interest payments" during a fiscal year.
- *4: To supplement our balance sheets presented on a GAAP basis, we use a non-GAAP measure of balance sheets to analyze balance sheets generated from our operations. The presentation of a non-GAAP measure is not meant to be considered in isolation or as an alternative to net income as an indicator of our performance, or as an alternative to any balance sheets figures as a measure of financial position.

(3) Business Forecasts for the Fiscal Year ending March 31, 2012

Despite the continued economic expansions in newly emerging nations including China, the global economic recovery is expected to slow down further as it continues to be adversely affected by uncertainties relating to governments end their monetary easing policies and implement monetary tightening policies to prevent inflation and the recent shift in governmental fiscal policies that tended to be expansionary to stimulate economy but are becoming increasingly contractionary to reduce deficits,. The business environment surrounding the Nidec Group remains uncertain with the appreciation of the Japanese yen and other Asian currencies against the U.S. dollar, increasing wages and raw material prices, and intensifying global competition.

In light of the foregoing, in an effort to achieve the goals and targets set forth in its mid-term growth strategy, "Vision 2015," the Nidec Group intends to implement measures that focus on growth while seeking to reduce costs on a group-wide basis to enhance its profitability through programs designed to reduce cost of sales and improve its fixed cost structure.

The future customer demand as well as general market demand for our products has become highly unpredictable as the supply networks supporting Japan's major industries suffered tremendous damage as a result of the earthquake that struck Northeastern Japan on March 11, 2011. As a result, forecasting our operating results has become a more difficult task, particularly with respect to our expected operating results for the first six months of the fiscal year ending March 31, 2012. Our current forecasts for the fiscal year ending March 31, 2012 set forth below should be read in light of these circumstances.

Forecast of consolidated results for the fiscal year ending March 31, 2012

Net sales	¥720,000 million	(Up 4.6% from the previous fiscal year)
Operating income	¥85,000 million	(Down 6.1% from the previous fiscal year)
Income from continuing operations before		
income taxes	¥81,000 million	(Up 1.9% from the previous fiscal year)
Net income attributable to Nidec Corporation	¥52,500 million	(Up 0.3% from the previous fiscal year)

Forecast of consolidated results for the six months ending September 30, 2011

		(Down 9.3% from the same period of the
Net sales	¥305,000 million	previous fiscal year)
		(Down 38.3% from the same period of the
Operating income	¥32,000 million	previous fiscal year)
Income from continuing operations before		(Down 27.9% from the same period of the
income taxes	¥30,000 million	previous fiscal year)
		(Down 31.5% from the same period of the
Net income attributable to Nidec Corporation	¥18,500 million	previous fiscal year)

Note:

The exchange rates used for the preparation of the foregoing forecasts is US\$1 = \$80 and 1 Euro= \$110. The exchange rates between the relevant Asian currencies and the Japanese yen used for the preparation of the foregoing forecasts were determined assuming this U.S. dollar-Japanese yen exchange rate.

(4) Dividend Policy

We uphold shareholder-oriented management and pursue high growth, high profitability and high share value to build long-term, sustainable growth in shareholder value. We seek to lay out our vision for the future on a regular and timely basis to keep stakeholders informed on how we intend to respond to changing opportunities and challenges as we continue to strive to succeed in our endeavors. Placing importance on regular dividend payments, we seek to increase our dividend payout to around 30% of our consolidated net income and use reserves to reinforce our management structure, expand our business horizons, and eventually to improve our profitability and shareholder value.

We have determined the year-end dividend to be \(\frac{4}{5.0}\) per share for the fiscal year ended March 31, 2011. As a result, together with the interim dividend of \(\frac{4}{40.0}\) per share, the full-year dividend will be \(\frac{4}{85.0}\) per share, an increase of \(\frac{4}{20.0}\) from the fiscal year ended March 31, 2010. The dividend payout ratio, which is obtained by dividing dividend declared for the year by net income attributable to Nidec Corporation, for this fiscal year is approximately 23%.

Our current dividend forecast for the year ending March 31, 2012 is a full-year dividend of ¥90.0 per share (an interim dividend of ¥45.0 per share and a year-end dividend of ¥45.0 per share), an increase of ¥5.0 per share compared to the full-year dividend for the fiscal year ended March 31, 2011. Based on this forecast, the dividend payout ratio for the fiscal year ending March 31, 2012 is expected to be approximately 24%.

(5) Risk Factors

The significant risks relating to our business that we are recognized as of March 31, 2011 included those relating to:

- concentration of sales in a small number of customers,
- our dependence on the computer industry,
- our dependence on the hard disc drive market,
- downward pricing pressure,
- our third party suppliers,
- competition,
- commercializing customized products,
- product defects,
- our dependence on production in developing countries,
- the incomparability of our quarterly operating results,
- our advanced planning for production and inventory,
- our M&A strategy,
- our growth placing strains on our managerial, operational and financial resources,
- our dependence on our founder, President and CEO, Mr. Shigenobu Nagamori,
- our failure to achieve our corporate objectives or business strategies,
- our reliance on monthly financial data from operating segments not prepared on a U.S. GAAP basis,
- legal and regulatory compliance,
- our internal controls over financial reporting,
- patents and other intellectual property rights,
- · leaks of confidential information,
- hiring and retention of qualified personnel,
- our pension plans,
- impairment of goodwill and long-lived assets,
- uncertainties relating to deferred tax assets,
- foreign exchange fluctuations,
- interest rate fluctuations,
- unexpected drastic declines in the global economies, especially in Japan following the recent earthquake and subsequent events,
- our ability to collect on our accounts receivable,
- stock value fluctuations,
- our access to liquidity and capital
- natural disasters and other events over which we have little or no control, and
- a substantial number of our shares of common stock being eligible for future sale.

The foregoing risk factors were identified based on information available at the time of this announcement, and do not contain all of the information that may be important to you. For more information about the significant risks and other key factors that should be considered, please see our annual report on Form 20-F, reports on Form 6-K and other current disclosures that we have publicly released.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended, and Section 21E of the U.S. Securities Exchange Act of 1934, as amended) about Nidec Corporation and its group companies (the "Nidec Group"). These forward-looking statements are based on the current expectations, assumptions, estimates and projections of the Nidec Group in light of the information currently available to it. These forward-looking statements are subject to various risks and uncertainties. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "may," "will," "expect," "anticipate," "estimate," "intend," "plan," "forecast" or similar words. These statements discuss future expectations, identify strategies, contain projections of the results of operations or financial condition of the Nidec Group, or state other forward-looking information. Known and unknown risks, uncertainties and other factors could cause the actual results to differ materially from those contained in any forward-looking statement. The Nidec Group cannot promise that the expectations expressed in these forward-looking statements will turn out to be correct. Actual results could be materially different from and worse than our expectations as a result of certain factors, including, but not limited to (i) the Nidec Group's ability to design, develop, mass produce and win acceptance of its products, (ii) general economic conditions in the computer, information technology, automobile and related product markets, particularly levels of consumer spending, (iii) exchange rate fluctuations, particularly between the Japanese yen and the U.S. dollar and other currencies in which the Nidec Group makes significant sales or in which the Nidec Group's assets and liabilities are denominated, (iv) the Nidec Group's ability to acquire and successfully integrate companies with complementary technologies and product lines, including, but not limited to, Emerson Electric Co.'s motors and controls business, (v) adverse changes in laws, regulations or economic policies in any of the countries where the Nidec Group has manufacturing or other operations, and (vi) the risks identified above.

2. The Nidec Group

The Nidec Group is comprised of Nidec Corporation ("Nidec"), 158 consolidated subsidiaries and 2 affiliated company.

Nidec prepares its consolidated financial statements in accordance with U.S. GAAP, and its scope of consolidation is determined in accordance with U.S. GAAP. Nidec's segments comprise a total of 14 reportable segments in accordance with the Accounting Standards Codification No. 280, "Segment Reporting". Operating Segments are components of an enterprise regularly used by the enterprise's top decision-makers in making business decisions and assessing performance. Reportable segments consist of one or more operating segments aggregated on the basis of economic similarity and materiality.

Our reportable segments are as follows.

The **Nidec Corporation** segment comprises Nidec Corporation in Japan, which primarily produces and sells hard disk drive motors, DC motors, fan motors, and general motors for automobiles.

The **Nidec Electronics (Thailand)** segment comprises Nidec Electronics (Thailand) Co., Ltd. in Thailand and its consolidated subsidiaries, which primarily produce and sell hard disk drive motors.

The **Nidec (Zhejiang)** segment comprises Nidec (Zhejiang) Corporation, a subsidiary in China, which primarily produces and sells hard disk drive motors.

The **Nidec (Dalian)** segment comprises Nidec (Dalian) Limited, a subsidiary in China, which primarily produces and sells DC motors and fan motors, but excludes its general motors for automobile business.

The **Nidec Singapore** segment comprises Nidec Singapore Pte. Ltd., in Singapore and other consolidated subsidiaries, which primarily sell hard disk drive motors, DC motors, fan motors and pivot assemblies.

The **Nidec (H.K.)** segment comprises Nidec (H.K.) Co., Ltd., a subsidiary in Hong Kong, which primarily sells hard disk drive motors, DC motors and fan motors.

The **Nidec Philippines** segment comprises Nidec Philippines Corporation in the Philippines and other consolidated subsidiaries, which primarily produce and sell hard disk drive motors.

The **Nidec Sankyo** segment comprises Nidec Sankyo Corporation in Japan and other consolidated subsidiaries, which primarily produces and sells DC motors, machinery, and electronic components.

The **Nidec Copal** segment comprises Nidec Copal Corporation in Japan and its consolidated subsidiaries, which primarily produce and sell electronic and optical components, and machinery.

The **Nidec Tosok** segment comprises Nidec Tosok Corporation in Japan and its consolidated subsidiaries, which primarily produce and sell automobile parts and machinery.

The **Nidec Copal Electronics** segment comprises Nidec Copal Electronics Corporation in Japan and its consolidated subsidiaries, which primarily produce and sell electronic components.

The **Nidec Techno Motor** segment comprises Nidec Techno Motor Holdings Corporation in Japan and itsr consolidated subsidiaries, which primarily produce and sell general motors for home appliances and industrial use.

The **Nidec Motor** segment comprises Nidec Motor Corporation and other consolidated subsidiaries in North America, South America, Asia and Europe, which primarily produce and sell general motors for home appliances and industrial use.

The **Nidec Motors&Actuators** segment comprises Nidec Motors & Actuators in France and other subsidiaries of Europe, North America and China which primarily produce and sell general motors for automobiles

The All Others segment comprises subsidiaries that are operating segments but not designated as reportable segments due to their immateriality.

Note:

Beginning in the quarterly reporting period ended September 30, 2010, we changed our segment reporting so that it is in line with the changes we made in our management decision-making process. Our acquired subsidiaries have been included in our segments for internal management reporting to the chief operating decision maker and for external reporting. Because the number of our subsidiaries has been increasing due to our recent acquisitions, such as our acquisition of Emerson Electric Co.'s motors and controls business on September 30, 2010, we have made modifications to our management style that are designed to enhance profitability at each group company level. The current segment reporting is based on our modified management decision-making process, including:

- 1) Nidec acquired Emerson Electric Co.'s motors and controls business on September 30, 2010. The acquired business has been identified as a reportable operating segment (the "Nidec Motor" segment) since the current quarterly reporting period ended December 31, 2010.
- 2) The Nidec Servo segment is no longer reported as a reportable segment and is included in the All Other segment in the current period due to their immateriality.

The Nidec Group specializes in the business of "everything that spins and moves" with a focus on motors and other drive technology products as well as products, equipment, parts and components that incorporate drive technologies. The Nidec Group's core product categories include: "Small precision motors", "General motors", "Machinery", "Electronic and Optical components" and "Other" products. The principal business activities in each of these product categories are carried out in the areas of product development, manufacturing and sales, distribution and other services both in Japan and overseas.

The business activities of Nidec Corporation and the Nidec Group's principal consolidated subsidiaries are as follows:

Product Category		Principal Companies
Small precision motors	Spindle motors for HDDs	Nidec Corporation,
		Nidec Electronics (Thailand) Co., Ltd.,
		Nidec Philippines Corporation,
		Nidec (Zhejiang) Corporation,
		Nidec Subic Philippines Corporation,

Other	Automobile parts	Nidec Tosok Corporation	
	Services, etc.	Nidec Total Service Corporation,	
		Nidec Logistics Corporation	

3. Management Policies

(1) Basic management policies

We aim to reach the No. 1 position in the world of comprehensive drive technology, specialized in the business of "everything that spins and moves" with a focus on motors. We seek to uphold the following three management goals and principles:

- 1. Provide employment opportunities based on healthy business growth,
- 2. Supply universally desired, indispensable products for the common good, and
- 3. Pursue the No. 1 position in all that we undertake.

Nidec and its group companies aim to maximize shareholder value and meet the expectations of shareholders by achieving higher growth, profit and stock prices, over the long-term.

(2) Management targets

We have launched a new business strategy, "Vision 2015," pursuant to which we aim to achieve target sales levels of ¥1 trillion in the fiscal year ending March 31, 2013 and ¥2 trillion in the fiscal year ending March 31, 2016. As targets relating to profitability, we also aim to achieve and maintain an operating income ratio of 20% and an ROE (return on equity) of 15%.

(3) The Nidec Group's mid- to long-term business strategies

To achieve the targets set forth in "Vision 2015," the Nidec Group, acting based on "its global organic growth strategy" and "M&A strategy," seeks to establish the "four core business lines" in its business portfolio and globalize its "three core operations," *i.e.*, research and development, manufacturing, and sales.

We plan to shift from our current business portfolio consisting primarily of small precision motors and other products to an improved and expanded business portfolio consisting of four core business lines—small precision motors, home appliance and industrial motors, automotive motors and other motors—in an effort to achieve the \(\frac{1}{2}\)2 trillion sales level target in the fiscal year ending March 31, 2016.

Simultaneously, we seek to strengthen our operating structure in order to successfully compete in the increasingly competitive global market by appropriately allocating and expanding our research and development, manufacturing, and sales operations in the rapidly expanding and changing newly emerging markets.

1. Global organic growth strategy

Taking advantage of the recent global trend favoring environmentally-friendly regulatory policies applicable to motors, we aim to establish a global operating network and structure with a focus on newly emerging markets, which are expected to sustain growth in the foreseeable future.

1) We seek to expand our core motor product lines, starting from small precision motors to home appliance and industrial use motors, including automotive motors, which are expected to become one of our major products,

and large-size motors. We intend to further develop new products, markets and customers by applying our flagship DC motor technology that has enabled us to offer sophisticated, small, high-power, energy-efficient and power-saving motors and by putting to full use our state-of-the-art product development capabilities and low-cost manufacturing technologies.

- 2) As the size of digital content increases globally and the need for data storage, such as cloud computing, continues to increase, we aim to further strengthen our competitive position in the HDD motor market by developing new and innovative technologies that can meet the market's demand for larger HDD capacity and new HDD application as well as smaller and thinner HDD products.
- 3) We seek to gain a leading market share globally and maintain the highest technological standards for our electronic and optical components and other equipment and devices, including semiconductor components, while endeavoring to seize growth opportunities by integrating technologies among our group companies and developing new business lines.

2. M&A strategy

We plan to continue to actively seek M&A opportunities as a critical part of our growth strategy as we seek to achieve growth quickly and efficiently. In the fiscal year ended March 31, 2011, we, through our Corporate Strategy Office, the division that specializes in strategic M&A, successfully acquired Emerson Electric Co.'s motors and controls business, which business was subsequently succeeded to by Nidec Motor Corporation, and entered into a share purchase agreement with SANYO Electric Co., Ltd. to acquire all of the outstanding shares in SANYO Seimitsu Co., Ltd.

We intend to actively seek M&A opportunities with a particular focus on the automotive motor industry, which we expect to become a core business line within our business portfolio, and the home appliance and industrial motor industry, which is expected to grow rapidly.

(4) The Nidec Group's challenges

1. Continue to improve the corporate governance system

To further enhance our corporate governance system, during the fiscal year ended March 31, 2010, we increased the number of our outside corporate auditors to four, while two new outside directors joined our board of directors. With these new outside corporate auditors and directors, we intend to further improve our corporate governance system, including our board of directors.

2. Enhance globalization efforts

We plan to enhance efforts to globalize our management structure and our core operations, focusing primarily on sales, manufacturing, and research and development, to successfully compete in the increasingly competitive global market.

1) Globalize our management system

Rapid market globalization and intensifying competition require us to globalize our management system that enables us to promptly make decisions. We seek to enhance our management system so as to successfully compete in such market environment by hiring and training decision-makers capable of managing our operations flexibly from such global perspective, including hiring such decision-makers locally for our foreign operations.

2) Strengthen our global sales network

As a critical part of our "Vision 2015" mid-term growth strategy, we intend to pursue a global sales strategy where we aim to gain the largest market share while making a group-wide effort to expand and enhance our global sales network. Focusing on newly emerging markets, during the fiscal year ended March 31, 2011, we established five sales branches of a sales subsidiary in China and a sales subsidiary in India, Nidec India Private Limited. We

have also begun considering expanding our sales operations to Brazil, from which we could further expand our operations to other parts of South America.

3) Strengthen our global manufacturing operations

As part of our global manufacturing strategy, in an effort to minimize the risk of concentration of our manufacturing operations in a particular country or region, we seek to allocate our resources appropriately in various locations. Focusing on newly emerging markets, during the fiscal year ended March 31, 2011, we established a new manufacturing subsidiary in Shaoguan, China, and we plan to build a large-scale manufacturing facility in India in 2011, and another large-scale manufacturing facility in Brazil in 2012. In an effort to improve our management of the group-wide manufacturing operations, we aim to achieve synergies with the manufacturing operations of Nidec Motor Corporation in the United States, Mexico, the United Kingdom and China, which we acquired in the fiscal year ended March 31, 2011.

4) Strengthen our global R&D capabilities

With respect to our research and development efforts, during the fiscal year ended March 31, 2011, we announced a plan for a Research and Development Center designed to become a core component technology development facility for our global R&D strategy, where we intend to take advantage of the recent global trend favoring environmentally-friendly regulatory policies applicable to motors. We seek to meet market demand for shorter development cycles for home appliance and industrial use motors and automotive motor products, which are expected to drive our future growth, by achieving synergies with the manufacturing operations of Nidec Motor Corporation in the United States, Mexico, the United Kingdom and China, which we acquired in the fiscal year ended March 31, 2011. We also intend to implement group-wide measures to enhance our R&D capabilities so as to be better able to offer new products and technologies. For example, as the price of neodymium magnets increases, Nidec Corporation's switched reluctance motor technology is expected to be applied to a variety of products since this technology requires no rare earth materials. As part of our global strategy to increase local manufacturing, we also seek to localize our R&D operations. For example, we plan to expand and improve our R&D facilities in Dalian, Dongguan and other locations in China.

5) Enhance our global management infrastructure

As a global company, we continue to improve our group-wide management system, accounting and financial reporting systems and procedures, financial performance, and information disclosure systems and procedures that meet global standards. For example, we launched during the fiscal year ended March 31, 2010, and plan to continue with a project to facilitate our conversion to the International Financial Reporting Standards. In addition, during the fiscal year ended March 31, 2011, we launched a new mid-term information technology improvement plan, under which we aim to create an IT system that is standardized at a level sufficient to enable us to globally compete and grow and, at the same time, is sufficiently flexible to adapt to changes.

Our Corporate Administration and Internal Audit Department, the department responsible for ensuring that our management system properly functions on a group-wide basis, seeks to enhance measures to prevent improper activities based on the experience and know-how gained through its measures to comply with the U.S. Sarbanes-Oxley Act of 2002, as amended. In addition, during the fiscal year ended March 31, 2011, we launched a balance sheet review to further improve our internal control systems and procedures. We also seek to improve our disclosure systems and policies through enhanced cooperation between a department responsible for information disclosure and other relevant specialized departments.

Such specialized divisions, including the compliance department, the risk management department and the corporate social responsibility promotion department, also collaborate with other departments as appropriate. We seek to find ways to contribute to society based on our basic management policies as a good corporate citizen.

Notes:

- 1) Pursuant to ASC 205-20 "Presentation of Financial Statements-Discontinued Operations", results of discontinued operations were separated as "Loss from discontinued operations" from results of continuing operations. The results of the discontinued operations for the fiscal year ended March 31, 2010 have been reclassified retrospectively. Therefore, "Information by Segment", "Quarterly Consolidated Statements of Income ", "Information by Business Group", "Sales by Geographic Segment" and "Sales by Region" in this report have also been retrospectively reclassified.
- 2) Pursuant to ASC 805 "Business Combinations", the results of operations for the nine months ended December 31, 2010 have been adjusted retrospectively, as a completion of the fair value evaluation of the assets acquired and the liabilities assumed upon the acquisition of Nidec Motor Corporation completed in the three months ended March 31, 2011. The results of operations for the three months ended March 31, 2011 was prepared based on this retrospective adjustment.

Not applicable.

(6) Scope of consolidation and application of the equity method

1. Scope of consolidation

	As of
_	March 31, 2011
Number of consolidated subsidiaries	158

2. Application of equity method

	As of
_	March 31, 2011
Number of affiliated companies	
accounted for by the equity method	2

3. Change in the scope of consolidation from March 31, 2010

Increase of consolidated subsidiaries	25
Decrease of consolidated subsidiaries	8

4. Change in significant subsidiaries

As of August 26, 2010, we established "Nidec Motor Corporation". As the additional investment to Nidec Motor Corporation after the establishment, it bacame our "Specified Subsidiaries" (Tokutei Kogaisha) in this fiscal year ended March 31, 2011.

5. Change in the application of equity method from March 31, 2010

increase of affinated companies accounted for by	
the equity method	1
Decrease of consolidated subsidiaries	-

6. Critical Accounting Policies

The Company and its subsidiaries in Japan maintain their records and prepare their accounts and records in accordance with accounting principles generally accepted in Japan, and its foreign subsidiaries in conformity with those of their countries of domicile. Certain adjustments and reclassifications have been incorporated in the accompanying consolidated financial statements to conform with accounting principles generally accepted in the United States ("U.S. GAAP").

(7) Changes Relating to the Basis for Preparing Our Consolidated Financial Statements

As of April 1, 2010, NIDEC adopted FASB Accounting Standards Codification™ (ASC) 860

"Transfers and Servicing" updated by Accounting Standards Update (ASU) No. 2009-16, "Accounting for Transfers of Financial Assets". ASU 2009-16 requires more disclosure about transfers of financial assets, including securitization transactions, and where companies have continuing exposure to the risks related to transferred financial assets. ASU 2009-16 also eliminates the concept of a "qualifying special-purpose entity," which changes the criteria for derecognizing financial assets. The adoption of this standard did not have a material impact on NIDEC's consolidated financial position, results of operations or liquidity.

As of April 1, 2010, NIDEC adopted ASC 810 "Consolidation" updated by ASU No. 2009-17, "Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities." ASU 2009-17 requires an enterprise to perform an analysis to identify the primary beneficiary of all variable interest entities and also requires ongoing reassessments of whether an enterprise is the primary beneficiary of all variable interest entities. The adoption of this standard did not have a material impact on NIDEC's consolidated financial position, results of operations or liquidity.

Notes:

- 1. The operating segments are the segments of Nidec for which separate financial information is available and for which operating profit or loss amounts are evaluated regularly by executive management in deciding how to allocate resources and in assessing performance.
- 2. Our segmental operating income or loss is presented in accordance with financial reporting principles and practices generally accepted in Japan.
- 3. We have changed our segment reporting in line with the changes we made in our management decision-making process during the fiscal year ended March 31, 2011. Figures for the fiscal year ended March 31, 2010 have been retrospectively reclassified.

6. Other Information

(1) Changes in Directors and Auditors

The election, retirement and position changes of directors and corporate auditors are expected to be submitted for, and is subject to, approval at the Company's Ordinary General Meeting of Shareholders scheduled to be held on June 21, 2011.

1. Proposed change in Representative Director

Not applicable

2. Proposed changes in other Members of the Board of Directors and Corporate Auditors

(1)Retiring Member of the Board of Directors

Name	Currently position
Yasuo Hamaguchi	Member of the Board, First Senior Vice President

Note: Yasuo Hamaguchi is expected to be appointed as First Senior Vice President.

(2) New Corporate Auditors

Name	Currently position
Osamu Narumiya	Vice President of Nidec Corporation.
Ryuichi Tanabe	Private Secretary to the Minister for Foreign Affairs:
	Ambassador for Kansai Region

Notes: Osamu Narumiya is expected to be appointed as Full-time Auditors. Ryuichi Tanabe will be nominated as Full-time and Outside Auditors.

(3) Retiring Corporate Auditors

Name	Currently position
Hideo Asahina	Full-time and Outside Corporate Auditor
Takashi Iwata	Full-time Corporate Auditor

Notes: Hideo Asahina and Takashi Iwata are expected to be appointed as Executive Consultants. Takashi Iwata is leaving office before the expiration of his term.

Reference (Year ended March 31, 2011)

Notes:

- 1. Product categories are classified based on similarities in product type, product attributes, and production and sales methods
- 2. Major products of each product category:

- (1) Small precision motors: Small precision DC motors (including spindle motors for HDDs), brushless DC fans, brush motors, vibration motors
- (2) General motors: Motors for home appliances and industrial use, and automobiles
- (3) Machinery: Power transmission drives, precision equipment, factory automation-related equipment
- (4) Electronic and Optical components: Electronic components, optical components
- (5) Other: Automobile components, pivot assemblies, other components, service etc
- 3. The product category has been changed from "Mid-size motors" to "General motors" which includes both Mid-size motors and Large-size motors, because our motor product line has been expanded to include large industrial motors with the completion of the acquisition of Emerson Electric Co.'s motors and controls business on September 30, 2010.
