

Does Your Buildout Call for Card Issuance?

There are many card encoding devices currently in the market, but the market demands change ever so quickly. Being the most flexible platform in the industry, **Nidec Sankyo** is at the forefront with their MST and SCT encoding dispenser series. Whether your design requires magstripe, EMV chip, SIM card, RFID, or a combination thereof, **Nidec Sankyo** offers a product suited to your needs.

Nidec Sankyo's encoding dispensers are capable of reading, writing and issuing any type of card that meets the ISO/IEC standards, including magnetic stripe cards, 8-pin IC cards as well as RFID cards all by transmitting/receiving data through the RS232C or USB interface.

March 2018

Nidec Sankyo has been an industry leader in card solutions for over 40 years. Our commitment to quality, reliability and expertise has shaped our technologies to match the needs of an ever-changing market place.

Nidec Sankyo designs solutions to suit the customer's vision. We seek to internalize this philosophy of innovation with our company slogan, "All for Dreams".

With optional cassette sizes available, our dispensers can issue up to 500 cards in one cassette. Need to issue a variety of cards? **Nidec Sankyo** also offers dual and triple cassette encoding dispensers, capable of issuing up to 900 cards before the next reload!

Worried about security? Don't be! **Nidec Sankyo's** card dispensers come standard with gated card ports and optional anti-skimming or anti-fishing security features as well as encrypting data communication and lockable card cassettes, depending on the model.

Nidec Sankyo's card encoding dispensers can be configured for a variety of applications including:

- Membership or Student ID Cards
- Employee/Visitor Badges
- Access Control or Hotel Keys
- Prepaid / Gift cards
- SIM Cards

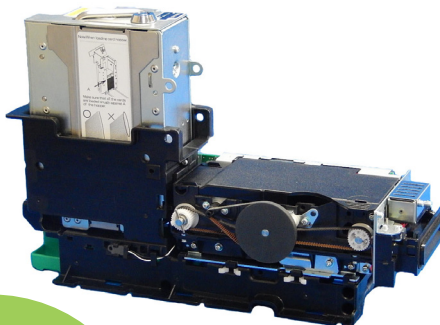

So, whether you need a dispenser with all the bells and whistles that can encode multiple card types, recycle cards or if you're just in need of a basic card dispenser, **Nidec Sankyo** has you covered. Take a look at Page 2 for a glimpse of the devices that **Nidec Sankyo** has to offer!
