## Nidec Advance Technology Vietnam Co., LTD. Started operation

Nidec Advance Technology (Vietnam) Corporation, a subsidiary of Nidec Advance Technology Corporation, was established in March 2023 in Thang Long Industrial Park, Vinh Phuoc Province, Vietnam, and began operations in June of the same year.

The interior construction of the plant and the delivery of equipment have now been completed, and manufacturing will begin on December 1st.

### 1. Background of the establishment of Nidec Advance Technology (Vietnam) Co., LTD

In recent years, investment in production facilities for cutting-edge semiconductor packages has been increasing in Southeast Asia, and the need for our group's inspection equipment and jigs has grown dramatically. By establishing the company in the suburbs of Hanoi, where our key customers are expanding, and by building a system capable of manufacturing and assembling our inspection jigs and providing technical support, we will be able to respond to our customers more quickly.

### 2. Company overview
