

Nidec Recognized with Highest Rating “Supplier Engagement Leader” in CDP 2024

The CDP (formerly Carbon Disclosure Project), a global environmental non-profit organization, has recognized Nidec Corporation as prestigious 2024 Supplier Engagement Leader in “Supplier Engagement Rating” (“SER”).

SER assesses a company’s supply chain engagement towards climate-change issues based on their response to CDP’s Climate Change Questionnaire, which is divided into four areas: governance, targets, Scope 3 emissions, and value chain engagement. Nidec was recognized as a company highly rated for the efforts in engaging with suppliers.

As a company that operates globally, the NIDEC Group has positioned a crucial role to “contributing to a sustainable global environment” as one of its key sustainability opportunities. With the Nidec’s mission, “contribute to the earth with the world's most powerful motors.”, the company will continue to help achieve a global carbon-neutral society with our technologies and solutions, to achieve net zero CO2 emissions from its business activities by FY2040 and net zero CO2 emissions including its supply chain by FY2050.

【About CDP】

CDP is a not-for-profit charity that operates a global environmental disclosure system for companies and local governments. In 2024, over 24,800 companies responded worldwide, representing two-thirds of global market capitalization.

※ Indirect greenhouse gas emissions across the entire corporate value chain
